

Parent Technology Night

WHEN: Wednesday, October 28, 2015
WHERE: Bound Brook High School
TIME: 6:00 PM – 8:00PM
AUDIENCE: All K – 12 Parents/Guardians

*Classroom presentations will be in both English and Spanish

Please join the Bound Brook School District administrators and faculty from all 5 schools at our Parent Technology Night. This evening will begin with a presentation on “Parenting in the Digital Age,” with our keynote speaker, Melissa Straub. Then guests will learn more about how our students are using technology. Come see how innovative technology tools are being used to enrich instruction and create dynamic learning environments across all disciplines. Participants have the option of attending classroom presentations based on the grade level their child is in.

Purpose: To provide parents with an understanding of how the Bound Brook Schools envisions a compelling K-12 learning environment and see how students and staff use technologies that promote 21st century teaching and learning.

Goal: Parents will see how our school environment leverages technology to provide access to authentic learning experiences that maximize student achievement and prepare students to be productive citizens in a competitive global society.

5:45 Doors Open
